

SEELAM MANOHAR

Java Backend Developer

+91 8309740932 | manoharsai635@gmail.com | linkedin.com/in/manohar-seelam | github.com/Seelam-Manohar

SUMMARY

Java Backend Developer with hands-on experience in building RESTful web services using Spring Boot, Spring MVC, Spring Data JPA and MySQL. Strong understanding of OOP, Collections Framework, Exception Handling and MVC Architecture. Seeking a Java Backend Developer role to contribute to scalable enterprise applications.

TECHNICAL SKILLS

Languages: Java, SQL

Backend: Spring Boot, REST APIs, Spring Data JPA, Hibernate

Database: MySQL

Tools: Git, GitHub, Maven, Postman

Concepts: OOP, Java 8 Features, Collections Framework, Exception Handling, Multithreading, MVC Architecture

PROJECTS

Employee Management System – Core Java

Tech Stack: Java, OOP, Collections

- Built a console-based, menu-driven application to manage employee records using core Java and the Collections Framework.
- Implemented add, update, delete, search, and display operations using OOP principles and in-memory data structures.
- Applied exception handling to validate input and handle runtime errors gracefully.

Employee Management System – Advanced (Spring Boot, JDBC & MySQL)

Tech Stack: Java, Spring Boot, JDBC, MySQL

- Upgraded the core Java version by integrating JDBC and later migrating to Spring Boot for a structured, layered backend.
- Re-implemented add, update, delete, search, and display operations to read from and write to a MySQL database instead of in-memory storage.
- Applied structured exception handling and problem-solving techniques to identify and resolve database connectivity and query issues.
- Maintained accurate, persistent employee records through structured data management using Spring Boot and MySQL.

Personal Portfolio Website

Tech Stack: HTML, CSS, JavaScript

- Designed and developed a responsive multi-section portfolio website featuring Home, About, Skills, Projects, and Contact sections with a fixed navigation bar.

INTERNSHIP

Java Backend Developer Intern – Talentshine India Pvt Ltd

Jul 2025

- Developed backend modules using Java and Spring Boot following MVC architecture.
- Built REST APIs and implemented CRUD operations using Spring Data JPA and MySQL.
- Structured applications using Controller, Service, and Repository layers.
- Used Git and GitHub for version control and team collaboration.

EDUCATION

B.Tech in Computer Science and Engineering, BVC Engineering College

2021 – 2025

CGPA: 7.54

CERTIFICATIONS

- Java Full Stack – Talentshine
- Python Programming – EI Systems
